

Participate in Norwegian Chemical Society's survey and get the chance to win a giftcard from Komplett.no (value of 2000,- NOK)!

The Norwegian Chemical Society is a national interest organization for chemists, but we would like to know how we can be more relevant for our target group.

The target group for the survey is:

- **Members and non-members of NKS**, but who have an interest in chemistry
- People who are both studying or employed, regardless of whether they are employed in industry or in the academic sector, or otherwise in the public sector (e.g. teachers).
- Others who for one reason or another should be interested in chemistry

The survey takes approx. 10 minutes to fill out. It is possible to participate anonymously, but it is also possible to participate in the draw for a **gift card worth 2,000,- NOK from Komplett.no!**

The survey is open until 31st of January, 2024
